

Why ARC Earthrings?

The Smartest Shaft Grounding Solution for Electric Motor Repairers.

**STAND OUT.
 DELIVER MORE.
 GROUND MORE!**

What Makes ARC Earthrings Unbeatable:

Industrial-Grade Heavy-Duty Build

Rugged design with a premium look that stands out immediately from competitors. Built to last in tough environments.

Longest Guarantee in the Industry - 3 Years!

We back our rings with a full 3-year warranty, setting a new standard in reliability.

Works on NEMA & IEC Motor Sizes

Full compatibility across motor types - one range covers all your needs.

Immediate Availability - Even Large HV sizes

All rings in stock ready to ship! Making Earthrings your solution partner.

Unique Gold Fibre HV Rings

Unique to ARC: Gold fibers for HV motors, 8 x More Conductive - superior performance, sleek design.

No Silver Paint Needed

Save time and hassle - our rings do not require silver paint for installation.

Universal Mounting Brackets Included (Free)

Install your way - screw-on or epoxy, your choice. Brackets are always free.

Easy to order!

Only the shaft size is needed to order. With 6 rings covering motors from 5-500HP!

Why Rewinders Prefer ARC:

Various Mounting Options

Bolt-through, Brackets and Adhesive can be used to mount standard rings.

One Ring - Multiple Solutions!!!

Due to a patent adjustable design, each ARC ring can support a 20MM size range.

Made by Motor Repair for Motor Repair!

HV ARC

LV ARC

Earthrings Gold Fibre Technology™

Enhanced for:

- 1) Superior shaft contact (Gold & Layer design)
- 2) Lower resistance
- 3) Extended ring life (Layer design)

- ⚡ LOW-RESISTANCE CARBON-GOLD HYBRID FILAMENTS
- 🌀 CONTAMINATION GAPS FOR SELF-CLEANING ACTION
- 🔗 3D-ALIGNED FOR MAXIMUM SHAFT COVERAGE

BENEFITS COMPARISON

Feature	Earthrings Gold Fibre	Standard Rings
Current capacity	High	Standard
Contamination dispersion	Designed gaps (Self-cleaning)	No design gaps
Wear resistance	Extended life	Standard life

FLAT-ALIGNED
